

Nathan Harding

Full Stack Developer

✉ nathan.harding@jajags.com | 🌐 localhost:8080 | 💻 GitHub:
github.com/NathanHarding762 | 📍 United States

Summary

Motivated Full Stack Developer with 3+ months of hands-on experience building web applications using modern JavaScript frameworks, Python, and RESTful APIs. Skilled in designing, implementing, and deploying both frontend and backend solutions. Eager to contribute to dynamic development teams and continue expanding expertise in full-stack technologies.

Skills

Frontend: React, Vite, TypeScript, Tailwind CSS, HTML, CSS, JavaScript

Backend: Python, Flask, FastAPI, REST APIs, Node.js

Databases: SQLite, PostgreSQL, MongoDB (basics)

Tools & Platforms: Git, GitHub, VS Code, npm, Docker (basic)

Other: TensorFlow, NumPy, Data Handling, API Integration

Projects

Maker Space Portfolio | [GitHub](#)

- Developed a React + Vite frontend integrated with a Python backend.
- Implemented dynamic routing, component-based architecture, and API consumption.
- Deployed frontend and backend concurrently, managing ports and cross-origin requests using Flask-CORS.

Hotel Review AI | [GitHub](#)

- Built a Python backend using TensorFlow and Flask for sentiment analysis of hotel reviews.

- Created an API to serve predictions to a frontend interface.
- Utilized NumPy and data preprocessing for text sequences and model integration.

Portfolio Website | GitHub

- Designed a personal portfolio to showcase projects and resume.
 - Implemented responsive UI using Tailwind CSS and React components.
 - Linked to live projects and GitHub repositories.
-

Education

- Self-taught / Online Learning (CodeHS, GitHub Projects, Python & Web Development Courses)
-

Experience

Full Stack Developer (Personal / Freelance Projects)

- 3+ months experience building and deploying full-stack applications.
- Gained practical knowledge of project structure, version control, and frontend-backend integration.
